

QCD@LHC 2023

Monday, 4 September 2023

Experimental Results: Experimental Results - CLC203 (14:00 - 15:30)

-Conveners: Francesco Giuli; Javier Llorente

time	[id] title	presenter
14:00	[37] Precision measurements of W and Z production at ATLAS	LI, Shu
14:30	[36] Measurement of electroweak gauge boson production in association with jets at ATLAS	WAMORKAR, Tanvi Dr WAMORKAR, Tanvi

Tuesday, 5 September 2023

Experimental Results - CLC203 (16:00 - 17:00)

time	[id] title	presenter
16:00	[30] Measurements involving W,Z bosons (either inclusive or in association with jets)	DENG, Jianqiao
16:30	[31] Measurements involving W,Z bosons (either inclusive or in association with jets) with the CMS detector	BARBERIS, Emanuela

Wednesday, 6 September 2023

Experimental Results - CLC203 (14:00 - 15:30)

time	[id] title	presenter
14:00	[32] Deep learning assisted unbinned measurements of jet substructure observables and azimuthal angular asymmetry in deep-inelastic scattering with the H1 detector	REICHELDT, Daniel
14:30	[70] Jet substructure observables and azimuthal angular asymmetry in deep-inelastic scattering with H1	MIKUNI, Vinicius
15:00	[33] Measurements involving jets and extraction of fundamental SM parameters with the CMS detector	GUGLIELMI, Valentina Ms GUGLIELMI, Valentina
