

Goals of the Workshop

- Map the landscape of modelling/simulation efforts across the board at Durham
- Identify similarities, differences, new ideas
- Contextualise modelling and its epistemology: models vs. parametrizations
- Explore the link between reality, data and models limitations, challenges, misconceptions, lessons and successes.

IAS Development Projects

- Call is open, deadline: 9.6.2023
- Up to £1,500
- More information: https://www.durham.ac.uk/research/institutesand-centres/advanced-study/projects/open-callsfor-research-funding/
