Exact results in large-N CFTs

Thursday, December 14, 2023 6:20 PM (20 minutes)

Some CFTs permit exact evaluation of their CFT data; these often come from large-N limits. We review the calculation of these data, and observe the intricate structure of CFTs of tensorial type when considered as a function of continuous dimension.

Would you be interested in receiving feedback on your presentation?

Yes
