

Session Program

7-10 Apr 2025

Standard Model at the LHC 2025

Electroweak

Durham, Appleby W103

Monday 7 April

15:35

Electroweak

Session | **Location:** Durham, Appleby W103 | **Conveners:**
Mathieu Pellen, Hannes Mildner, Kenneth Long, Miguel Ramos Pernas

15:35–16:05 **diboson at NNLO QCD+PS**

Speakers

Alessandro Gavardi, Alessandro Gavardi

16:05–16:35

Recent measurements of diboson production (including VBS) from ATLAS and CMS

16:35

Thursday 10 April

11:00

Electroweak

Session | **Location:** Durham, Appleby W103 | **Conveners:**
Kenneth Long, Miguel Ramos Pernas, Hannes Mildner, Mathieu Pellen

11:00–11:30 **EFT in the EW sector from exp perspective - exp.**

11:30–12:00 **Off-shell computation of triboson (interplay with VH)**

Speaker

Marek Schoenherr

12:00–12:30

Recent measurements of triboson production, including overlap with VH production

12:30
