

Cosmo 07

Wednesday, 22 August 2007

Large-Scale Structure - Gallery Room 2, Level 3 Bramber House (13:45 - 15:15)

time	[id] title	presenter
13:45	[134] The cosmological gravitational wave background from primordial density perturbations	Dr ANANDA, Kishore
14:00	[135] Observational bounds on the cosmic radiation density	Dr HAMANN, Jan
14:15	[136] Constraining Cosmology with Peculiar Velocities of Type Ia Supernovae	Dr HAUGBOELLE, Troels
14:30	[137] Primordial black holes in the dark ages	Ms MACK, Katherine
14:45	[138] Baryonic Acoustic Oscillation via the Renormalization Group	Dr PIETRONI, Massimo
15:00	[139] Cluster cosmology from XCS	Mr SAHLEN, Martin
