

BUSSTEPP 2012

Report of Contributions

Contribution ID: 0

Type: **not specified**

Rhorry Gauld: Top Quark Physics in The Forward Region

Monday, 10 September 2012 14:00 (15 minutes)

Session Classification: Student Talks

Contribution ID: 1

Type: **not specified**

Bradley Kavanagh: Improving dark matter direct detection analysis

Monday, 10 September 2012 14:15 (15 minutes)

Session Classification: Student Talks

Contribution ID: 2

Type: **not specified**

Robert Lawrance: Holographic Technicolor

Monday, 10 September 2012 14:30 (15 minutes)

Session Classification: Student Talks

Contribution ID: 3

Type: **not specified**

Nick Iles: On W_3 -algebra zero mode traces in the Potts Model

Monday, 10 September 2012 14:45 (15 minutes)

Session Classification: Student Talks

Contribution ID: 4

Type: **not specified**

Alex Cockburn: Symmetric Calorons

Monday, 10 September 2012 15:00 (15 minutes)

Session Classification: Student Talks

Contribution ID: 5

Type: **not specified**

Chris Deans: Fitting parton distributions with LHC data

Contribution ID: 6

Type: **not specified**

Ben Galloway: Quantum Gravity on the Lattice

Contribution ID: 7

Type: **not specified**

Chris Deans: Fitting parton distributions with LHC data

Contribution ID: 8

Type: **not specified**

Chris Deans: Fitting parton distributions with LHC data

Tuesday, 11 September 2012 14:00 (15 minutes)

Session Classification: Student Talks

Contribution ID: 9

Type: **not specified**

Ben Galloway: Quantum Gravity on the Lattice

Tuesday, 11 September 2012 14:15 (15 minutes)

Session Classification: Student Talks

Contribution ID: 10

Type: **not specified**

Mark Harley: Infrared Singularities of Massless Non-abelian Gauge Theories

Tuesday, 11 September 2012 14:30 (15 minutes)

Session Classification: Student Talks

Contribution ID: 11

Type: **not specified**

Matthias Le Dall: Graphical Leptogenesis, a new way to look at leptogenesis

Tuesday, 11 September 2012 14:45 (15 minutes)

Session Classification: Student Talks

Contribution ID: 12

Type: **not specified**

James Edwards: From String to Maxwell – Electromagnetism from Dynamic Lines of Flux

Tuesday, 11 September 2012 15:00 (15 minutes)

Session Classification: Student Talks

Contribution ID: 13

Type: **not specified**

David Garner: A Model of Gauge-String and Gauge-Gravity Duality

Wednesday, 12 September 2012 14:00 (15 minutes)

Session Classification: Student Talks

Contribution ID: 14

Type: **not specified**

Eliana Lambrou: Non-perturbative investigation of the dimensional reduction of the 5D Yang-Mills model via localization on the lattice

Wednesday, 12 September 2012 14:15 (15 minutes)

Session Classification: Student Talks

Contribution ID: 15

Type: **not specified**

Daniele Barducci: DY phenomenology at the LHC of the Composite Higgs Model

Wednesday, 12 September 2012 14:30 (15 minutes)

Session Classification: Student Talks

Contribution ID: 16

Type: **not specified**

Glauber C. Dorsch: Electroweak Baryogenesis in Two-Higgs-Doublet Models

Wednesday, 12 September 2012 14:45 (15 minutes)

Session Classification: Student Talks

Contribution ID: 17

Type: **not specified**

Tomás Gonzalo Velasco: SUSY SO(10)

Wednesday, 12 September 2012 15:00 (15 minutes)

Session Classification: Student Talks

Contribution ID: 18

Type: **not specified**

Daniele Teresi: Thermal Quantum Field Theory in Real and Imaginary Time

Thursday, 13 September 2012 14:00 (15 minutes)

Session Classification: Student Talks

Contribution ID: 19

Type: **not specified**

Alix Wilcock: POWHEG method in Herwig++

Thursday, 13 September 2012 14:15 (15 minutes)

Session Classification: Student Talks

Contribution ID: 20

Type: **not specified**

Danielle Wills: Stringy Origins of Cosmic Structure

Thursday, 13 September 2012 14:30 (15 minutes)

Session Classification: Student Talks

Contribution ID: 21

Type: **not specified**

Paul Jennings: Broken Baby Skyrmions

Thursday, 13 September 2012 14:45 (15 minutes)

Session Classification: Student Talks
