

Session Program

2-14 Sept 2012

BUSSTEPP 2012

Student Talks

IPPP

Tuesday 11 September

14:00

Student Talks

Session | Location: IPPP

14:00-14:15

Chris Deans: Fitting parton distributions with LHC data

14:15-14:30

Ben Galloway: Quantum Gravity on the Lattice

14:30-14:45

Mark Harley: Infrared Singularities of Massless Non-abelian Gauge Theories

14:45-15:00

Matthias Le Dall: Graphical Leptogenesis, a new way to look at leptogenesis

15:00-15:15

James Edwards: From String to Maxwell - Electromagnetism from Dynamic Lines of Flux

15:15
