

Session Program

2-14 Sept 2012

BUSSTEPP 2012

Student Talks

IPPP

Wednesday 12 September

14:00

Student Talks

Session | Location: IPPP

14:00-14:15

David Garner: A Model of Gauge-String and Gauge-Gravity Duality

14:15-14:30

Eliana Lambrou: Non-perturbative investigation of the dimensional reduction of the 5D Yang-Mills model via localization on the lattice

14:30-14:45

Daniele Barducci: DY phenomenology at the LHC of the Composite Higgs Model

14:45-15:00

Glauber C. Dorsch: Electroweak Baryogenesis in Two-Higgs-Doublet Models

15:00-15:15

Tomás Gonzalo Velasco: SUSY SO(10)

15:15
