

Session Program

22-27 Sept 2013

RADCOR 2013

Multiloop

Lumley Castle

Thursday 26 September

09:00

Multiloop

Session | Location: Lumley Castle

09:00–09:30

A fresh look at (non)renormalizable QFTs

Speaker

Roberto Pittau

09:30–10:00

The number theory of radiative corrections

Speaker

David Broadhurst

10:00–10:30

New 3-loop Wilson coefficients for deep-Inelastic heavy flavor production

Speaker

Abilio De Freitas

10:30–11:00

Towards QCD running in 5 loops: quark mass anomalous dimension

Speaker

Konstantin Chetyrkin

11:00
