

DMUK meeting

Monday 09 June 2014 - Monday 09 June 2014

Durham

Scientific Programme

The format of the meeting will be 4 (invited) review talks on direct detection (Hans Kraus), indirect detection (Anthony Brown), numerical simulations (Justin Read) and DM searches at LHC (Sarah Malik) in the morning and about 10 very short presentations (based on 6 transparencies max) in the afternoon. The idea behind the very short talks is to get a flavour/an overview of the work carried in the UK. All PhD students& postdocs are encouraged to give a talk.
