The DDalphaAMG solver library

Wednesday, July 27, 2016 9:40 AM (20 minutes)

In this talk we report on the publication of the DDalphaAMG solver library. We describe its features, show examples of its application and give an overview of future developments.

Primary author: Dr ROTTMANN, Matthias (University of Wuppertal)

Co-authors: Prof. FROMMER, Andreas (University of Wuppertal); Mr STREBEL, Artur (University of Wuppertal); Dr LEDER, Björn (HU Berlin); Prof. SZABO, Kalman (Forschungszentrum Jülich); Dr KAHL, Karsten (University of Wuppertal); Dr HEYBROCK, Simon (ESS Kopenhagen); Mr BACCHIO, Simone (University of Cyprus, University of Wuppertal); Dr KRIEG, Stefan (Forschungszentrum Jülich); Dr SOELDNER, Wolfgang (Regensburg University)

Presenter: Dr ROTTMANN, Matthias (University of Wuppertal)

Session Classification: Algorithms and Machines

Track Classification: Algorithms and Machines
