

The 34th International Symposium on Lattice Field Theory (Lattice 2016)

Monday, July 25, 2016

Chiral Symmetry - Building 67 Room 1007 (2:15 PM - 4:15 PM)

-Conveners: Andreas Athenodorou

time	[id] title	presenter
2:15 PM	[64] First Experiences with Overlap Fermions based on the Brillouin Kernel	Dr DURR, Stephan
2:35 PM	[158] QCD with Flavored Minimally Doubled Fermions	Dr WEBER, Johannes Heinrich
2:55 PM	[219] Chiral condensate from OPE of the overlap quark propagator	LIU, Zhaofeng
3:15 PM	[327] Determination of chiral condensate from low-lying eigenmodes of Mobius domain-wall Dirac operator	Dr HASHIMOTO, Shoji
3:35 PM	[283] Staggered domain wall fermions	Dr HOELBLING, Christian

Wednesday, July 27, 2016

Chiral Symmetry - Building 67 Room 1003 (11:30 AM - 12:30 PM)

-Conveners: Stephan Durr

time	[id] title	presenter
11:30 AM	[332] Comparing different definitions of the topological charge	Dr ATHENODOROU, Andreas
11:50 AM	[244] θ -dependence of the massive Schwinger model	ROYO, Eduardo
12:10 PM	[271] Real-time simulations of anomaly induced transport in external magnetic field	Mr VALGUSHEV, Senia
