

Session Program

13-15 Apr 2016

Axion-like particles: Theory and Experiment

Experimental Session 1

IPPP Durham, OC218
Durham DH1 3LE UK

Thursday 14 April

09:00

Experimental Session 1

Session | **Location:** IPPP Durham, OC218, Durham DH1 3LE UK | **Convener:** Michael Spannowsky

09:00–09:45

Axionic suppression of plasma wakefield acceleration

Speaker

Dr David Burton

09:45–10:30

Searching for Axions with ADMX - Status Report and Future Directions

Speaker

Dr Ed Daw

10:30–11:00

Tea and coffee

11:00–11:45

IAXO

Speaker

Dr Igor Irastorza

11:45–12:30

Axion searches using dark matter direct search experiments

Speaker

Dr Paolo Beltrame

12:30
