

# **Dark Matter Interpretations for Direct Detection**

**Tuesday 9 August 2016 - Tuesday 9 August 2016**

**Lincoln College, Oxford**

## **Scientific Programme**

Dark Matter Interpretations is a discussion-oriented workshop featuring short talks by theorists and experimentalists actively working on interpreting direct detection signals of Dark Matter. Please submit an abstract for consideration.

Invited speakers include David Cerdeño (IPPP Durham), Anne Green (Nottingham), Javier Menéndez (University of Tokyo), Nicole Larsen (University of Chicago/KICP), Ran Itay (Weizmann Institute).
