

So we want to search for this...

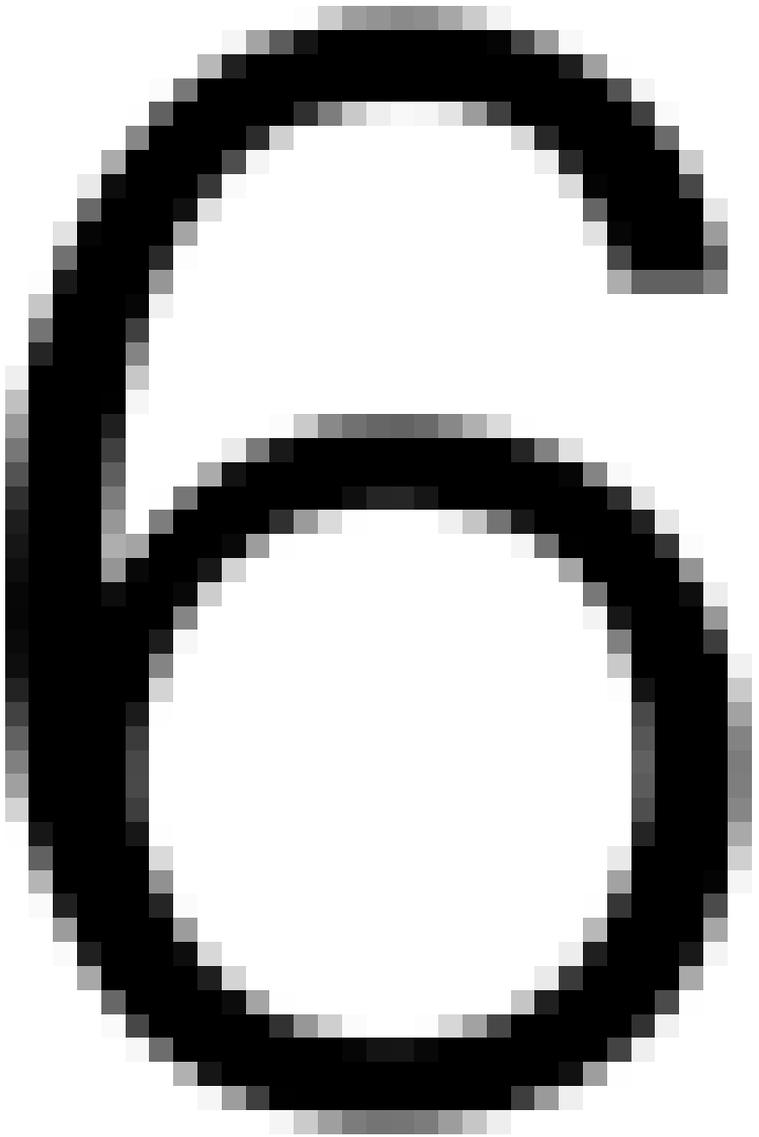

• Low MET: Looking at NMSs as a leading in

$NLS\bar{P} \rightarrow \text{Higgs} + L\bar{S}\bar{P}$

$\text{Higgs} \rightarrow b\bar{b}$ (jets)

- Looking at $p\bar{p} \rightarrow$ squarks, gluinos in initial state.

- Want to turn this into experimental analysis.

So we want to search for this...

• Looking at $pp \rightarrow s\bar{q}$ quarks, gluinos in initial state.

- Want to turn this into experimental analysis.
