

# IPPP topical meeting on physics with high-brightness stored muon beams

## Wednesday, 10 February 2021

### Neutrino Physics (13:00 - 15:00)

time	[id] title	presenter
13:00	[5] Neutrino cross sections for oscillation experiments	Dr DOLAN, Stephen
13:30	[6] Improving the precision in modelling pion reactions in the NuWro event generator	Dr NIEWCZAS, Kajetan
14:00	[8] Exclusive-final-state hadron observables from neutrino-nucleus multinucleon knockout	Dr SOBCZYK, Joanna
14:30	[7] e4nu effort, using electron measurements to improve the precision of the GENIE event generator	Dr ASHKENAZI, Adi
